

# House warming!

## The robots are getting a house of their own

Dear

**Danish Technological Institute invites you to the grand opening of our Robot Laboratory – a house filled with any imaginable kind of robot technology (and a few unimaginable).**

The official opening of DTI's Robot Lab takes place on the 9<sup>th</sup> November 2010 from 2 pm to 5 pm at Forskerparken 10 in Odense

The Robot Lab counts 1.100 square meters of development facilities, workshops and offices – tripling our current facilities.

The core of the Robot Lab revolves around creating innovative robotic solutions for tomorrow's industrial sector as within welfare tech and many other interesting sectors.

We – and the robots – hope you will participate in our grand opening on the 9<sup>th</sup> November!

Best regards  
Claus Risager  
Head of Center, Danish Technological Institute, Center for Robot Technology

Agriculture, Forestry & Horticulture & Fishery

Manufacturing & Food Industry

Energy & Climate

Health & Welfare

Play, Learning & Experience

Architecture, Design & Intelligent Construction
